## Measures for the reduction of the propagation of Covid-19 at Guarda Golf Hotel & Residences

The aim of this document is to present the measures that are currently in place at Guarda Golf Hotel & Residences in order to ensure the safety of each person. These measures are valid in accordance with the latest federal order and the recommendations of the Federal Office of Public Health (FOPH).

- ✓ For everyone's comfort and safety within our establishment, only vaccinated or recovered persons (Swiss '2G' rule) are allowed to enter Guarda Golf Hotel & Residences. Unvaccinated persons are not granted access. Upon your arrival at the hotel, our front desk team will be asking you to present a valid Covid certificate and a matching official piece of identification (valid for 16 years old and above).
- ✓ Mask wearing is also compulsory within all public areas and in our restaurant and spa (when not seated).
- ✓ Each person is required to disinfect their hands on entering the building and regularly during their stay.
- ✓ A distance of 1.5 meters is to be respected between each group of people.
- ✓ Guests of the hotel are free to renounce the daily cleaning of their room, or to specify a preferred time for cleaning their room, in order to avoid being present at the same time.
- ✓ Our buildings are equipped with a fresh air supply system. The air is filtered, heated (and humidified for your comfort). According to the recommendations, this system will operate 24 hours a day.
- ✓ All our guests are kindly requested to inform us if they start to present the symptoms during their stay, or within 5 days of their departure, in order to allow us to contact any person who may have been in their vicinity.
- ✓ If a guest presents symptoms before their stay, they and their loved ones are requested to renounce their stay.
- ✓ Cleaning and disinfection programs are in place in all departments and areas of the hotel. These programmes are regularly checked.

We thank you in advance for your assistance in adhering to these rules and look forward to welcoming you in safe and healthy environment.
